Phase I Environmental Site Assessment Report of Findings

Beaufort Commerce Park – Lot 13 Schein Loop Beaufort, South Carolina

1.0 SUMMARY

This Phase I Environmental Site Assessment (ESA) was conducted to identify recognized environmental conditions (RECs), controlled RECs, historical RECs, and *de minimis* conditions associated with a portion of a single parcel totaling approximately 13.6-acres and located on Schein Loop in Beaufort, South Carolina (the Property). This ESA's purpose is to fulfill certain due diligence requirements of the innocent landowner defense, contiguous owner defense, and bona fide prospective purchaser clause of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The requested Phase I ESA identified the following:

- The Property consists of a portion of a single parcel totaling approximately 13.6-acres and is located on Schein Loop in Beaufort County, South Carolina. The Property is identified by a portion of Beaufort County TMS Number R120 024 000 0407 0000.
- The Property is currently undeveloped. The northern section of the Property is cleared, and the remaining areas are woodlands.
- Various disposed materials were observed on the Property, including household waste, an old hot tub, a television, and building materials. Asphalt shingles were observed in the building materials. Often times asphalt shingles contain asbestos; as such, the shingles should be characterized, removed, and disposed at an appropriate landfill. The presence of the disposed materials is considered a de minimis condition.
- The Property is generally bound to the north by TST Enterprise, LLC and Oliver's Bush-Hogging; to the south by a stormwater detention pond and residences; to the east by Schein Loop, Oliver's Clean Burn, and woodlands; and to the west by a stormwater detention pond and residences.
- The Property was not identified in any regulatory databases searched as part of this ESA.
- No data gaps were noted during the completion of this ESA.
- This assessment has identified no evidence of RECs, controlled RECs, or historical RECs in association with the Property.

2.0 INTRODUCTION

2.1 Purpose

The Beaufort County Economic Development Corporation requested that GEL Engineering, LLC (GEL) conduct a Phase I ESA of Lot 13 in the Beaufort Commerce Park located on Schein Loop, Beaufort, South Carolina. The purpose of this Phase I ESA is to evaluate the Property, and to a more limited scope surrounding properties, for the presence or absence of RECs, controlled RECs, historical RECs, and/or *de minimis* conditions.

A recognized environmental condition (REC) is described by American Society for Testing and Materials (ASTM) Standard E 1527-13 as:

the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property.

A controlled recognized environmental condition (CREC) is defined by the Standard as a:

recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority.

A historical recognized environmental condition (HREC) is described by the ASTM Standard as:

a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.

According to the Standard, de minimis conditions:

generally, do not present a material risk of harm to public health or the environment and generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

2.2 Detailed Scope of Services

GEL has performed this Phase I ESA in accordance with GEL's *Proposal for Phase I ESA*, dated March 26, 2020. These services have been performed in general accordance with ASTM Standard E 1527-13 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process," and in general accordance with 40 CFR Part 312 - "Standards and Practices for All Appropriate Inquiries." Any deletions and/or additional services that deviate from these standards are described in Sections 12.0 and 13.0. These

standards do not include investigation into all areas of local, state, tribal, and federal environmental requirements. These requirements were not addressed within this report and GEL is not responsible for other legal obligations for non-compliance with regulations not addressed specifically herein.

2.3 Significant Assumptions

Our findings and opinions are based upon information provided to us by others and our observations of the Property and are subject to, and limited by, the Terms and Conditions of the Contract Agreement agreed upon by Beaufort County Economic Development Corporation and GEL. We have not verified the completeness or accuracy of the information provided by others, unless noted otherwise. Our observations were based upon conditions readily visible at the Property at the time of our visit and did not include services typically performed during an Environmental Compliance Audit or a Phase II ESA. If additional information becomes available that may affect our conclusions and/or recommendations, we request the opportunity to review the information, and reserve the right to modify our report, as warranted.

2.4 Limitations and Exceptions

GEL, by virtue of providing the services described herein, does not assume the responsibility of the person(s) in charge of the Property or otherwise undertake responsibility for reporting to any local, state, or federal public agencies any conditions at the Property which may present a potential concern to public health, safety, or the environment. GEL understands that the client will notify the appropriate regulatory agencies as required.

The ASTM Standard does not address whether requirements in addition to all appropriate inquiry (AAI) have been met in order to qualify for the Landowner Liability Protections (LLPs), for example, the duties specified in 42 U.S.C. §9607(b)(3)(a) and (b) including the continuing obligation not to impede the integrity and effectiveness of activity and use limitations (AULs), or the duty to take reasonable steps to prevent releases, or the duty to comply with legally required release reporting obligations.

Performance of the ASTM Standard is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property, and the ASTM Standard recognizes reasonable limits of time and cost. No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property.

Subject to the ASTM Standard, an environmental site assessment meeting or exceeding the ASTM Standard and completed less than 180 days prior to the date of acquisition of the property or, for transactions not involving an acquisition, the date of the intended transaction, is presumed to be valid.

2.5 Special Terms and Conditions

This Phase I ESA was conducted in general conformance with the Contract Agreement between Beaufort County Economic Development Corporation and GEL and agreed upon by Beaufort County Economic Development Corporation on March 26, 2020.

2.6 User Reliance

This report has been prepared for the exclusive use of Beaufort County Economic Development Corporation solely for his use and reliance and is subject to the terms and conditions agreed upon between GEL and Beaufort County Economic Development Corporation for this specific project. These services have been provided in accordance with generally accepted environmental practices. No other warranty, expressed or implied, is made. The contents of this report should not be construed in any way to indicate GEL's recommendation to purchase, sell, or further develop the Property. Reliance on this report cannot be transferred without the written permission of Beaufort County Economic Development and GEL, and only if the other party agrees to the *Standard Terms and Conditions* agreed upon for this project. Terms and conditions are included in Appendix 19.1.

3.0 SUBJECT SITE DESCRIPTION

3.1 Location and Legal Description

The Property is an approximately 13.6-acre portion of a single parcel (Beaufort County TMS No. R120 024 000 0407 0000) located on Schein Loop in Beaufort, South Carolina. The Property is located at north latitude 32° 27′ 53.74″ and west longitude 80° 46′ 15.29″.

3.2 Property and Vicinity General Characteristics

As shown on Figure 1, an excerpt from the United States Geologic Survey (USGS) 7.5-minute quadrangle map of Laurel Bay, South Carolina, dated 1972 was reviewed. The map depicts the Property as undeveloped woodlands. The elevation of the Property is approximately 35 feet above mean sea level (MSL). Adjoining properties to the north are at a slightly higher elevation, properties to the east and west are at the same general elevation, and properties to the south are at a slightly lower elevation.

3.3 Current Use of the Property

The Property is currently undeveloped. The northern section of the Property is cleared and the remaining areas are woodlands.

3.4 Description of Structures, Roads, and Other Property Improvements

The Property is accessed from Schein Loop. The Property is undeveloped and contains no structures. A majority of the tract is wooded except for the northernmost extents of the parcel.

The following utilities are provided to the Property: electric services are provided by Dominion energy, and water and sanitary sewer are provided by the Beaufort-Jasper Water and Sewer Authority.

3.5 Current Uses of the Adjoining Properties

Adjoining properties were observed for conditions that represent existing or potential sources of environmental impact to the Property. The Property and surrounding properties are shown on Figure 2. A summary of the current adjoining properties is provided in the following table.

Direction from Property	Adjoining Property Uses	Topographic relation to the Property	Existing or Potential REC's Inferred?
North	TST Enterprise LLC; Oliver's Bush-Hogging	Up-gradient	No
South	Stormwater Pond; residences	Down-gradient	No
East	Schein Loop; Oliver's Clean Burn; woodlands	Cross-gradient	No
West	Stormwater Pond; residences	Down-gradient	No

4.0 USER PROVIDED INFORMATION

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the User must provide certain information, if available, to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

An interview was conducted in the form of a written User Questionnaire, which was completed by Mr. Charlie Stone. The completed User Questionnaire is included in Appendix 19.2. Information provided by Mr. Stone is presented below in Sections 4.1 through 4.9.

4.1 Title Records

A chain of title for the property was not provided by the client partial listing of prior owners of the Property can be obtained from the Beaufort County, South Carolina government website (http://sc-beaufort-

county.governmax.com/svc/default.asp?sid=9CA6E647E57348E3944CF0D25524C53C).

The Property owner information is summarized in the following table.

Parcel TMS No. R120-024-000-0407-0000			
Dates of Ownership	Property Owner	Existing or Potential REC's Inferred?	
Until 3/2006	Greater Beaufort Hilton Head Economic Development P/S Inc.	No	
3/2006 – 12/2011	Dukes, Marvin H III; Greater Beaufort Hilton Head Economic Partnership; Lowcountry Economic Networks	No	
12/2011 – 5/2012	SCBT NA	No	
5/2012 – Present	City of Beaufort	No	

4.2 Environmental Liens or Activity and Land Use Limitations

Mr. Stone was interviewed regarding actual knowledge of any environmental cleanup liens against the property or any Activity and Use Limitations (AULs), such as engineering controls, land use restrictions, or institutional controls, that are in place at the Property and/or that are filed or recorded under federal, tribal, state or local law. Mr. Stone responded that he is not aware of any liens or restrictions on the Property.

4.3 Specialized Knowledge

Mr. Stone was interviewed regarding his potential specialized knowledge or experience related to the Property or nearby properties. He responded that he does not have specialized knowledge regarding the Property.

4.4 Commonly Known or Reasonably Ascertainable Information

Mr. Stone was interviewed regarding his awareness of commonly known or reasonably ascertainable information about the Property, such as past uses or prior environmental conditions, that would help the environmental professional to identify conditions indicative of releases or threatened releases. Mr. Stone responded that the Property has no past uses.

4.5 Presence of Contamination

Mr. Stone was interviewed regarding, based on his knowledge and experience related to the Property, any obvious indicators that point to the presence or likely presence of contamination at the Property. Mr. Stone responded that he has no knowledge or reason to assume contamination is present at the Property.

4.6 Valuation Reduction for Environmental Issues

Mr. Stone was interviewed regarding his knowledge of the purchase price being paid for the Property and if the purchase price reasonably reflected the fair market value of the Property. Mr. Stone stated that the purchase price reflects the fair market value.

4.7 Owner, Property Manager, and Occupant Information

The owner, property manager, and occupants of the Property are listed below.

Relation to Property	Name	Company Affiliation
Owner Representative	Charlie Stone	Beaufort County Economic Development
Owner Representative		Corporation

4.8 Reason for Performing Phase I ESA

This Phase I ESA was conducted in order to satisfy the due diligence requirement of the innocent landowner defense and bona fide prospective purchase provisions of CERCLA.

4.9 Other

No other information was provided by the User.

5.0 RECORDS REVIEW

Regulatory database information was provided by Environmental Data Resources, Inc. (EDR), a contract information services company. Information in this section is subject to the accuracy of the data provided by EDR and the date at which the information is updated. The scope described herein did not include confirmation of facilities listed as "unmappable" by regulatory databases.

In some of the following subsections, the terms "up-gradient, "cross-gradient," and "down-gradient" refer to the assumed hydraulic gradient relative to the Site. The groundwater flow direction and the depth to shallow groundwater, if present, would likely vary depending upon seasonal variations in rainfall and the depth to the soil/bedrock interface.

5.1 Standard Environmental Record Sources

Publicly available and practically reviewable federal and state environmental databases and records were reviewed to evaluate if environmental incidents have been reported at the Property or if properties with environmental liabilities are located in the vicinity of the Property. A detailed summary of federal and state databases prepared by Environmental Date Resources (EDR) is presented in Appendix 19.3. Federal and state regulatory databases have been researched and reported in accordance with the search radii specified by ASTM Standard E 1527-13.

The following table includes the approximate minimum search distances and a list of the databases reviewed. These databases were selected based on minimum requirements of ASTM E 1527-13. The number of facilities indicates the number of regulated facilities identified by GEL to be present within the approximate minimum search distance for a particular database. The following table also includes additional databases, outside of the ASTM standards, as produced by EDR. Please note that some facilities may be listed in more than one database.

Database	Definition	Search Radius (Miles)	Listings
	<u>Federal</u>		
NPL	The NPL is the USEPA's database of uncontrolled or abandoned hazardous waste facilities that have been listed for priority remedial actions under the Superfund Program.	1.0	0
NPL (Delisted)	The NPL (Delisted) refers to facilities that have been removed from the NPL.	0.5	0
CERCLIS	The CERCLIS database is a compilation of facilities, which the USEPA has investigated or is currently investigating for a release or threatened release of hazardous substances pursuant to the CERCLA of 1980.	0.5	0

Database	Definition	Search Radius (Miles)	Listings
CERCLIS/ NFRAP	CERCLIS/NFRAP refers to facilities that have been removed and archived from USEPA's inventory of CERCLA sites.	1.0	0
RCRA CORRACTS / TSD	The USEPA maintains a database of RCRA facilities associated with treatment, storage, and disposal (TSD) of hazardous waste that are undergoing "corrective action." A corrective action order is issued when there has been a release of hazardous waste or constituents into the environment from a RCRA facility.	1.0	0
RCRA Non- CORRACTS / TSD	The RCRA Non-CORRACTS/TSD database is a compilation by the USEPA of facilities, which report storage, transportation, treatment, or disposal of hazardous waste. Unlike the RCRA CORRACTS/TSD database, the RCRA Non-CORRACTS/TSD database does not include RCRA facilities where corrective action is required.	0.5	0
RCRA Generators	The RCRA Generators database, maintained by the USEPA, lists facilities that generate hazardous waste as part of their normal business practices. Generators are listed as either large (LQG), small (SQG), or very small (VSQG). LQGs produce at least 1,000 kilograms per month of non-acutely hazardous waste or 1 kilogram per month of non-acutely hazardous waste. SQGs produce between 100 – 1,000 kilograms per month of non-acutely hazardous waste. VSQGs are those that generate less than 100 kilograms per month of non-acutely hazardous waste.	Site and Adjoining Properties	0
IC / EC	A listing of sites with institutional and/or engineering controls in place. ICs include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on-site. Deed restrictions are generally required as part of the institutional controls. ECs include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or affect human health.	Site	0/0
ERNS	The ERNS database is a listing compiled by the USEPA on reported releases of petroleum and hazardous substances to the air, soil, and/or water.	Site	0
<u>State</u>			
SHWS	State and/or Tribal equivalent database of CERCLIS.	1.0	0
SWF / LF	State and/or Tribal database of solid waste disposal facilities or landfills in South Carolina.	0.5	2
LUST	State and/or Tribal database of leaking underground storage tanks in South Carolina.	0.5	0

Database	Definition	Search Radius (Miles)	Listings
UST / AST	State and/or Tribal database of registered storage tanks in South Carolina.	Site and Adjoining Properties	0/0
RCR	Registry of Conditional Remedies (RCR) is a registry of sites with conditional remedies such as land use controls and conditional no further actions	0.5	0
DRYCLEANERS	State and/or Tribal database of drycleaner sites in South Carolina	0.25	0
VCP	State and/or Tribal database of facilities included in the South Carolina's Voluntary Cleanup Program.	0.5	0
Brownfields	State and/or Tribal database of Brownfields sites addressed cooperative agreement recipients or targeted Brownfields assessments.	0.5	0
	Additional Environmental Records		
DOD	Database of Department of Defense Sites consisting of federally owned or administered lands equal or greater than 640-acrs that are administered by the Department of Defense.	1.0	1
RCRA-	Database of RCRA sites that do not presently generate	0.250	1
NonGen GWCl	hazardous waste. Groundwater Contamination Inventory (GWCI) is a database of all groundwater contamination cases in the state	0.5	0
FINDS	The Facility Index System database contains both facility information and "pointers" to additional sources containing more detail.	Site	0
HMIRS	Hazardous Materials Information Reporting System (HMIRS) – database containing hazardous material spill incidents reported to DOT	Site	0

GEL reviewed the regulatory information provided in the database report to identify listed facilities located within the approximate minimum search distances. A section of unmappable sites is included in the EDR report. Unmappable, or orphan sites, are facilities that have not been geocoded due to a lack of specific location information provided by the regulatory agencies but are known to be in the general area of the Property. The database report lists no "orphan" facilities (facilities that were not mapped in the database report due to poor or inadequate address information). The EDR report also includes a summary of Federal and State listed sites organized by zip code.

Listed Facilities within One-Half-mile of the Property

Name / Location	Approximate Distance / Direction / Hydraulic Gradient	Database Listings	Comment
Laurel Bay Naval Area	0.016-miles / southwest / down-gradient	DOD	The Laurel Bay Housing Area is located southwest of the Property, down- gradient of the Property.
Associated Materials Wood Grinding Site #2 101 Schein Loop	0.141-miles / north / cross-gradient	SWF/LF	Facility is reportedly a wood grinding and composting facility; no reported releases or violations.
Oliver's Clean Burn Air Curtain Incinerator 39 Schwartz Road	0.179-miles / east- northeast / cross- gradient	SWF/LF, Financial Assurance	No reported releases or violations. Facility reportedly burns organic debris from clearing and landscaping activities.
Beaufort Engine Leasing 8 Schein Loop	0.227-miles / southeast / down-gradient	RCRA NonGen / NLR, FINDS, ECHO	No reported RCRA releases or violations. Located down-gradient from the Property.

A review of the information provided by EDR indicates the surrounding facilities are located down gradient or cross gradient from the Property. Therefore, based on the facilities' regulatory status and apparent topographic relationship to the subject Property the facilities are not considered an environmental concern with respect to the subject Property.

5.2 Additional Environmental Record Sources

No additional sources were used in the completion of this report.

5.3 Physical Setting Source(s)

The following materials were reviewed to develop an understanding of the physical setting of the Property:

5.3.1 United States Geological Survey (USGS) 7.5-Minute Topographic Map

The USGS 7.5-minute topographic map titled Laurel Bay, South Carolina, dated 1972 was reviewed. The map depicts the Property as undeveloped woodlands. The elevation of the Property is approximately 35 feet above mean sea level (MSL). Adjoining properties to the

north are at a slightly higher elevation, properties to the east and west are at the same general elevation, and properties to the south are at a slightly lower elevation.

5.3.2 Groundwater

The subject property is located in the Coastal Plain Physiographic Province. The Coastal Plain is a wedge-shaped deposit of Cretaceous and younger sediments that range in thickness from near zero at the contact with the Piedmont Physiographic Province (the Fall Line) along its northwest edge, to thousands of feet at the coast. The Fall Line is the transitional boundary between the Coastal Plain and the Piedmont Physiographic Provinces. Coastal Plain soils are marine deposits laid down in the geologic past when ocean levels were higher and can contain various materials including interbedded soft and hard limestone's, gravel, sands, silts, clays, and organics.

Shallow groundwater generally flows in directions subparallel to the ground surface slopes and under the influence of gravity towards points of discharge such as creeks, swamps, drainage swales, or pumped groundwater wells. Areas of relatively high elevation (ridges) typically act as groundwater recharge areas, and stream valleys are typically groundwater discharge zones. Shallow, water table groundwater typically flows in the approximate direction of the topographic gradient. Deeper bedrock aquifers can be affected by bedrock surface patterns and fractures, and directional flow of bedrock-level groundwater cannot be estimated without subsurface exploration, which is beyond the scope of this assessment. The water table and bedrock aquifers are interconnected. Groundwater existing within the coastal plain bedrock aquifers is recharged at inland outcrop locations. Based on a review of an area topographic map, the natural shallow groundwater (water table) underlying the Property is expected to flow to the south.

5.3.3 Flood Maps

Federal Emergency Management Agency (FEMA) flood insurance maps for the Property (Map Number 450025D, Panel 35, dated September 29, 1986 indicate that Property is located in Zone C. Zone C is an area of minimal flooding.

5.4 Historical Use Information on the Property and Adjacent Properties

5.4.1 City Directories for the Property and Adjacent Properties

City directories and County Cross References listing residents and businesses alphabetically by name, address, and telephone number are compiled annually for many cities and towns in the United States. Each directory is cross-indexed by street address, allowing prior residents or businesses to be determined for the purpose of identifying past uses, typically associated with RECs. EDR provided a City Directory search for area between 1995 and 2014. The area containing the Property was not listed prior to 1995.

Street	Direction	Listing	REC Inferred
Schein Loop	North	101: Oliver's Bush Hogging LLC (2010-2014)	No
Schein Loop	South	8: AMW Cuyuna Engine Company Inc. (1995-2014); Beaufort Engine Leasing Inc. (2005-2010); Aquatic Technologies Inc. (2005); Harvest Moon Printing (1995)	No

The above-listed facilities are not considered RECs based on their site activities and/or down- or cross-gradient location in relation to the Property.

5.4.2 Aerial Photographs for the Property and Adjacent Properties

Aerial photographs taken between 1939 and 2017 were obtained from EDR. Each photograph was examined for evidence of practices or conditions that could potentially impact the Property.

Aerial Photo Date, ID, Scale and Source	Property and Adjacent Property Descriptions	Existing or Potential REC's identified?
	<u>Property:</u> Undeveloped woodlands.	
	North: Mostly not visible, but visible areas are woodlands.	
1939	East: Undeveloped woodlands.	No
	South: Undeveloped woodlands; small creek.	
	West: Undeveloped woodlands.	
	<u>Property:</u> Undeveloped woodlands.	
	North: Undeveloped woodlands; unimproved roads.	
1951	East: Undeveloped woodlands; unimproved roads.	No
	South: Undeveloped woodlands; unimproved roads; small creek.	
	<u>West:</u> Undeveloped woodlands; unimproved roads.	
	Property: Undeveloped woodlands; Unimproved road traverses north-	
	south through northwest section of the Property.	
	North: Some woodlands have been cleared; new unimproved roads are	
1961	now visible.	No
	East: New unimproved roads.	
	South: Undeveloped woodlands; small creek.	
	<u>West:</u> Undeveloped woodlands.	
1968	The Property and surrounding properties appear relatively similar to the	
1908	1961 photograph.	
	Except for a clearing for road construction southwest of the Property, the	
1974	Property and surrounding properties appear relatively similar to the 1968	No
	photograph.	
1977	The Property and surrounding properties appear relatively similar to the	No
13//	1974 photograph.	140

Aerial Photo Date, ID, Scale and Source	Property and Adjacent Property Descriptions	Existing or Potential REC's identified?
	Property: Undeveloped woodlands.	
	North: Undeveloped woodlands; unimproved road.	
1983	East: Woodlands; Increase in commercial development.	No
	South: Increase in residential development.	
	West: Increase in residential development.	
	Property: Undeveloped woodlands.	
1994	Surrounding Properties: Development of infrastructure associated with	No
133.	the Beaufort Commerce Park. The current Dominion Energy and concrete	""
	plant facilities have been constructed east of the Property.	
	Property: Undeveloped woodlands.	
2006	Surrounding Properties: Aside from cleared woodlands and development	No
2000	of a structure north of the Property, the surrounding properties appear	140
	relatively similar to the 1994 photograph.	
	<u>Property:</u> Undeveloped woodlands.	
	Surrounding Properties: Aside from development of a structure on the	
2009	northern adjacent property and the western adjacent stormwater pond,	No
	the surrounding properties appear relatively similar to the 1994	
	photograph.	
2013	The Property and surrounding properties appear relatively similar to the	No
	2009 photograph.	No
2017	The Property and surrounding properties appear relatively similar to the	No
	2013 photograph.	-

Copies of the aerial photographs reviewed are included in Appendix 19.5.

5.4.3 Sanborn Fire Insurance Company Maps for the Property and Adjacent Properties

From the late 1800's to the mid 1970's, the Sanborn Fire Insurance Company mapped industrial areas of cities and towns in the United States where the potential for loss was the greatest. Sanborn map coverage did not exist for the Property or surrounding properties.

5.4.4 Other Historical Records for the Property

EDR provided a topographic map report, containing topographic maps from 1918 to 2014. The Property is depicted as undeveloped woodlands throughout that timeframe. The only development on the surrounding properties depicted on the maps is residential, primarily to the west-southwest of the Property. Surface water drainage features are depicted to the east of the Property in the maps between 1958/1962 and 2014.

6.0 SUBJECT SITE RECONNAISSANCE

6.1 Methodology and Limiting Conditions

On March 10, 2020, a visual inspection of the Property and surrounding properties was conducted by Mr. Brian Bastian of GEL. The Property and surrounding properties, shown on Figures 2 and 3, were observed for evidence of RECs and potential sources of environmental impact to the groundwater and soil at the Property. Photographs of the Property are provided in Appendix 19.7.

6.2 General Property Setting

The Property is located in the Beaufort Commerce Park.

6.3 Observations

The Property is accessed from Schein Loop. The Property is undeveloped and contains no structures. A majority of the tract is wooded except for the northernmost extents of the parcel.

The following utilities are provided to the Property: electric services are provided by Dominion energy, and water and sanitary sewer are provided by the Beaufort-Jasper Water and Sewer Authority.

Property-General Observations		
Description	Reported/ Observed Onsite (Y/N)	Comments
Strong, Pungent, or Noxious Odors	N	None
Pools of Liquid	N	None
ASTs	N	None
Drums	N	None
Hazardous Substances and Petroleum Products Containers in Connection with Identified Uses	N	None
Hazardous Substances and Petroleum Products Containers Not in Connection with Identified Uses	N	None

Septic Systems	N	None	
Potential Offsite Vapor Migration Issues	N	None	
Other	Y	A small incinerator was observed on the Oliver's Clean Burn adjacent property. Woodchips and logs were located near the incinerator.	

7.0 INTERVIEWS

People with knowledge of the Property were interviewed in an effort to evaluate the presence or absence of RECs, controlled RECs, historical RECs, and/or de minimis conditions associated with the Property. GEL's interview with the User is documented in Section 4.0.

Name	Affiliation	Comments
Charlie Stone	Beaufort	Mr. Charlie Stone of the Beaufort County Economic Development
	County	Corporation was interviewed regarding his knowledge of the Property.
	Economic	Mr. Stone stated that his group is responsible for the Beaufort
	Development	Commerce Park, but it is owned by the City of Beaufort. He is unaware
	Corporation	of any development on the tract, spills or releases at the Property, and
		is unaware of any chemical use or storage on the Property or adjacent
		tracts. Mr. Stone is not aware of any issues with the adjacent
		stormwater pond. He was not aware of debris observed on the
		Property during site reconnaissance. Mr. Stone speculated that the
		debris could be from the nearby Oliver's Bush Hogging property, but he
		was not sure.
	Burton Fire	GEL submitted a Freedom of Information Act Request to the Burton
	District	Fire District to obtain information regarding fire department responses
		to the Property. The Burton Fire District has not responded to any
		incidences at the Property.

Communication records are included in Appendix 19.8.

8.0 DATA GAPS AND FAILURES

ASTM Standard E 1527-13 and 40 CFR Part 312, "Standards and Practices for All Appropriate Inquiries," specifically require that all data gaps and/or data failures in the research be identified and comments regarding the significance of the data gaps on the ability of the environmental professional to identify RECs be provided. No data gaps were identified during the completion of this Phase I ESA.

9.0 FINDINGS

- The Property consists of a portion of a single parcel totaling approximately 13.6-acres and is located on Schein Loop in Beaufort County, South Carolina. The Property is identified by a portion of Beaufort County TMS Number R120 024 000 0407 0000.
- The Property is currently undeveloped. The northern section of the Property is cleared, and the remaining areas are woodlands.
- Various disposed materials were observed on the Property, including household waste, an old hot tub, a television, and building materials. Asphalt shingles were observed in the building materials. Often times asphalt shingles contain asbestos; as such, the shingles should be characterized, removed, and disposed at an appropriate landfill. The presence of the disposed materials is considered a de minimis condition.
- The Property is generally bound to the north by TST Enterprise, LLC and Oliver's Bush-Hogging; to the south by a stormwater detention pond and residences; to the east by Schein Loop, Oliver's Clean Burn, and woodlands; and to the west by a stormwater detention pond and residences.
- The Property was not identified in any regulatory databases searched as part of this ESA.
- No data gaps were noted during the completion of this ESA.
- This assessment has identified no evidence of RECs, controlled RECs, or historical RECs in association with the Property.

10.0 OPINION

GEL's opinions are provided in Section 9.0.

11.0 CONCLUSIONS

GEL has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E 1527-13 for a portion of a single parcel totaling approximately 13.6-acres and located on Schein Loop in Beaufort County, South Carolina. Any exceptions to, or deletions from, this practice are described in Sections 12.0 and 13.0. This assessment has identified no evidence of RECs, controlled RECs, or historical RECs in association with the Property. Disposed debris was observed on the Property and is considered a de minimis condition.

12.0 DEVIATIONS

GEL is not aware of any deviations from ASTM Standard E 1527-13 or 40 CFR Part 312 in the text or preparation of this report.

13.0 ADDITIONAL SERVICES AND NON-SCOPE ISSUES

The following non-scope issues were neither requested the Beaufort County Economic Development Corporation nor addressed by this Phase I ESA: endangered species, regulatory compliance audits, ecological resources, industrial hygiene, indoor air quality, biological agents, mold, health and safety, power lines and electromagnetic fields, wetlands, asbestos survey or abatement, lead-based paint and related services, lead-in-drinking-water, radon, cultural and historical resources, surveying for line and grade, quantity estimates, detailed plans and specifications, waste characterization and treatment schemes, and geotechnical or structural engineering services, media sampling (soil, sediment, surface water, ground water, air, building materials, etc.), vapor intrusion, assessment of Continuing Obligations or compliance with Activity and Use Limitations, if present.

15.0 ENVIRONMENTAL PROFESSIONAL DECLARATION

I declare that, to the best of my professional knowledge and believe, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312, "Innocent Landowners, Standards for Conducting All Appropriate Inquiry."

Robert E. MacPhee

16.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

This report, entitled "Phase I Environmental Site Assessment," has been prepared for a portion of a single parcel totaling approximately 13.6-acres (Beaufort County TMS No. R120 024 000 0407 0000) and located on Schein Loop in Beaufort County, South Carolina, at the request of and for the exclusive use of Beaufort County Economic Development Corporation. It has been prepared in accordance with the guidelines set forth in the ASTM Standard E 1527-13, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process," and 40 CFR Part 312, "Standards and Practices for All Appropriate Inquires." It has been prepared in accordance with accepted quality control practices and has been reviewed by the undersigned.

THIS AGREEMENT IS SUBJECT TO
ARBITRATION PURSUANT TO
SECTION 15-48-10 OF
THE SOUTH CAROLINA CODE

CONTRACT AGREEMENT

AKBITRATION PURSUANT TO SECTION 15-48-10 OF THE SOUTH CAROLINA CODE	PROJECT CODE: [project code]
This contract agreement (the "Agreement") is entered (hereinafter called "CLIENT"), and GEL ENGINEERING located at 2040 Savage Road, Charleston, SC 29407.	ed into as of between [Company] 6, LLC , a South Carolina Corporation (hereinafter called "GEL "
CLIENT'S billing address is:	
[Company] [Company Address] [State, City, Zip Code]	Accounts Payable Contact Phone: Email:

A. CLIENT AND GEL, for the mutual consideration hereinafter set forth, agree as follows:

Click here to enter (Briefly summarize Scope of Services and Schedule of Performance – also attach copy of Proposal as Exhibit "A"). List any exclusions to the Scope of Services (if applicable).

B. CLIENT agrees to compensate GEL as follows:

(Choose one of the following methods of payment (should reflect the compensation mode presented in our proposal), and indicate whether a retainer (specify amount) is required prior to initiating work; alternative compensation plans must be approved by the Director, in advance.)

The pricing noted above is valid only if this contract is fully executed within ninety (90) days from the contract date.

- C. **CLIENT shall furnish the following:**
 - 1. Access to the site, and information as specified in the proposal.
 - 2. CLIENT shall provide GEL personnel with information regarding any and all potential hazards and CLIENT shall notify GEL if personal protective measures/equipment are required when working on the project site(s) associated with this Agreement. GEL personnel shall be provided with a copy of any health and safety plan available for the project site(s), and they will be afforded the opportunity to review that material prior to beginning work.
- D. This Agreement, as signed by the CLIENT and/or his/her/its representative, includes the following Standard Terms and Conditions.

STANDARD TERMS AND CONDITIONS OF THE AGREEMENT

- 1. **EXTRA WORK:** Extra work shall include, but not be limited to, additional office or field work caused by policy or procedural changes or governmental agencies, changes in the project, and work necessitated by any of the causes described in Paragraph 14 hereof. All extra work shall be authorized by CLIENT, in writing, prior to commencement by GEL.
- 2. **RESPONSIBILITY OF GEL: CLIENT** recognizes that site conditions (including physical, environmental, ecological and construction conditions) may vary from those observed at specific locations where borings, surveys or explorations are made, and that such conditions may change with time. Data, interpretations and recommendations by GEL will be based solely on information available to GEL at the time. GEL is not responsible for other parties' interpretation or use of the data and other information provided by GEL.

- 3. STANDARD OF CARE: Services provided by GEL under this Agreement will be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession practicing contemporaneously under similar conditions in the same locale as the project. Under no circumstance is any warranty, express or implied, made in connection with any Services provided by GEL under this AGREEMENT. GEL and CLIENT agree that the discovery of unanticipated hazardous materials may make it necessary for GEL to take immediate measures to protect health and safety. CLIENT agrees to compensate GEL for any equipment, decontamination or other costs incidental to the discovery of unanticipated hazardous materials.
- 4. **OWNERSHIP OF DOCUMENTS:** All tracings, specifications, computations, survey notes and other original documents and instruments of service are and shall remain the property of **GEL** unless otherwise provided by law. **CLIENT** shall not use such items on other projects without **GEL'S** prior written consent. **GEL** shall not release **CLIENT'S** data without authorization.
- 5. RESTRICTIONS ON USE OF REPORTS: CLIENT acknowledges that any reports rendered under this Agreement will be prepared in accordance with the agreed Scope of Services and pertain only to the subject project and are prepared for the exclusive use of the CLIENT. Use of the reports and data contained therein for other purposes is at the CLIENT's sole risk and responsibility, and CLIENT agrees to hold harmless and indemnify GEL for any claims, causes of action or damages arising therefrom.
- 6. SITE SAFETY: GEL shall take reasonable safety precautions with respect to the performance of the services contained in any project safety plan agreed to between the CLIENT and GEL, or an equivalent document, including written modifications thereto. GEL shall not be responsible for site safety and shall have no obligation to direct or stop the work of CLIENT'S contractors, agents, or employees.
- 7. **OBSERVATION AND TESTING OF CONSTRUCTION, SAFETY:** The observation and testing of construction is not included herein unless specifically listed in the Scope of Services set forth in Paragraph A of this Agreement. The presence of **GEL'S** representative will be for the sole, limited purpose of gathering information and performing field testing. Under no circumstances is **GEL** expected, nor does it intend, to directly control or supervise the physical activities of the contractor's workmen to accomplish the work on the project. **GEL'S** field representative is present at the site to provide the **CLIENT** with a continuing source of information based upon the field representative's observations of the contractor's work, but **GEL'S** work shall not include any superintending, supervision, or direction of the actual work of the contractor or the contractor's workman. The **CLIENT** shall inform the contractor that neither the presence of **GEL'S** field representatives, nor observation and testing personnel, shall excuse the contractor in any way for defects discovered in the contractor's work. The **CLIENT** acknowledges and accepts that **GEL** is not responsible for job or site safety on the project.
- 8. SUBTERRANEAN STRUCTURES: The CLIENT shall have the responsibility for identifying all subterranean structures or utilities which exist at the site prior to any work being performed by GEL. GEL has no liability to CLIENT and shall be indemnified by CLIENT against claims of any and all parties for damage or injury resulting from damage to subterranean structures or utilities which are not called to GEL'S attention and correctly shown in the contract documents or otherwise furnished to GEL in writing by CLIENT. The CLIENT agrees that its authorized representative will review all proposed boring locations in the field and either approve such locations or designate alternate locations.
- 9. **SUBCONTRACT: GEL** may at any time, upon written notice to, and approval by **CLIENT**, delegate, orally or in writing, or subcontract the performance of these services, or any portion thereof. Subcontractor work will be invoiced to the **CLIENT** with a 10% markup for projects performed on a time and materials basis.
- 10. **SITE ACCESS:** The **CLIENT** agrees to provide or obtain full and uninhibited access to the site and a safe working environment for performance of the services for **GEL**, its employees and subcontractors.
- 11. **CLIENT RESPONSIBILITY FOR AGENCY NOTIFICATION: CLIENT** shall be responsible for notification of the appropriate local, State or Federal agencies as required by law, or otherwise, to disclose in a timely manner any information that may be necessary to prevent any danger to health, safety and the environment or to comply with existing regulations.

PROJECT CODE: [project code]

12. **APPROVAL OF WORK:** The work performed by **GEL** shall be deemed approved and accepted by **CLIENT** as and when invoiced, unless **CLIENT** objects within 30 days of the invoice date by written notice identifying, with specificity, the reason(s) **CLIENT** believes such work is incomplete or defective.

13. PAYMENT TERMS:

- a. The CLIENT agrees to pay for services provided by GEL in accordance with the terms of this Agreement between the parties, including any additional services in excess of those stated in this Agreement as specifically authorized by CLIENT. Payment is due Within 30 days of the date of the invoice.
- b. Past due amounts are subject to interest at 1½ percent (1.5%) per month.
- c. GEL will stop work and withhold any submittals and/or other forms of project deliverables when payment is not received within 60 days of invoice date, or when invoice totals exceed \$50,000 unless exception has been mutually negotiated.
- d. The **CLIENT'S** obligation to pay for the services contracted is in no way dependent or conditioned upon the **CLIENT'S** ability to obtain financing, approval of governmental or regulatory agencies, or upon the **CLIENT'S** successful completion of the project.
- e. The **CLIENT** agrees to compensate **GEL** for services and normally reimbursable expenses if **GEL** is required to respond to legal processes related to **GEL'S** services for the **CLIENT**. Compensated services include hourly charges for all personnel involved in the response and attorney fees reasonably incurred in obtaining advice concerning the response, the preparation of the testifier, and appearances related to the legal process.
- 14. **DELAY:** Any delay, default, or termination in or of the performance of any obligation of **GEL** under this Agreement caused directly or indirectly by strikes, accidents, acts of God, shortage or unavailability of labor, materials, power or transportation through normal commercial channels, failure of **CLIENT** or **CLIENT's** agents to furnish information or to approve or disapprove **GEL** work promptly, late, slow or faulty performance by **CLIENT**, other contractors or governmental agencies, the performance of whose work is precedent to or concurrent with the performance of **GEL'S** work, or any other acts of the **CLIENT** or any other Federal, State, or local government agency, or any other cause beyond **GEL'S** reasonable control, shall not be deemed a breach of the Agreement. The occurrence of any such event shall suspend the obligations of **GEL** as long as performance is delayed or prevented thereby.
- 15. **TERMINATION:** This Agreement may be terminated by either party upon seven (7) days' written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party. In the event of termination, **GEL** shall be paid for all services rendered to the date of termination, as well as for all reimbursable expenses incurred prior to the date of termination. For purposes of this section, the failure of the **CLIENT** to pay **GEL** within sixty (60) days of receipt of an invoice shall be considered such a substantial failure, unless other payment terms have been mutually agreed to beforehand, and **CLIENT** agrees to waive any claim against **GEL** and to indemnify, defend and hold harmless from and against any claims arising from **GEL'S** suspension or termination due to **CLIENT'S** failure to provide timely payment. In the event of a substantial failure on the part of the **CLIENT, GEL**, in addition to the right to terminate set forth in this paragraph, may also elect to suspend work until the default in question has been cured. No delay or omission on the part of **GEL**, in exercising any right or remedy hereunder shall constitute a waiver of any such right or remedy on any future occasion.

16. INDEMNIFICATION:

a. CLIENT shall indemnify, defend and hold GEL harmless for any and all loss, cost, expense, claim, damage, or liability (including reasonable attorney's fees) of any nature arising from or related to CLIENT'S negligent acts, errors or omissions under this Agreement, including, without limitation, the following: (a) soil conditions; (b) changes in plans or specifications made by CLIENT or others; (c) use by CLIENT or others of plans, surveys, or drawings unsigned by GEL or for any purpose other than the specific purpose or project for which they were designed; (d) job site conditions and performance of work on the project by others; (e) inaccuracy of data or

information supplied by **CLIENT**; and (f) work performed on material or data supplied by others. CLIENT'S indemnity obligation shall apply whether or not GEL, or any other indemnitee, was or is claimed to be passively, concurrently, or actively negligent, and regardless whether liability without fault is imposed or sought to be imposed on GEL or any other indemnitee. Such indemnity shall not apply, or shall be appropriately conformed, to the extent that it is void or otherwise unenforceable under applicable law in effect on or validly retroactive to the date of this Agreement, and shall not apply where such loss, cost, expense, claim, damage, or liability is the result of the sole negligence or willful misconduct of GEL or any other indemnitee.

- GEL shall indemnify and hold CLIENT harmless for any and all damage, liability or cost (including reasonable attorney's fees) arising from GEL's sole negligent acts, errors or omissions under this Agreement.
- 17. **LIMITATION OF LIABILITY:** The **CLIENT** agrees that **GEL'S** liability for damages to the **CLIENT** for any cause whatsoever in connection with this project, and regardless of the form or type of action, whether in contract or in tort, including negligence, shall be limited to the greater of Fifty Thousand Dollars (\$50,000.00) or **GEL'S** total fee for services rendered on the project.
- 18. **INSURANCE: GEL** shall procure and maintain throughout the period of this Agreement, at **GEL'S** own cost, insurance for protection from claims under general, automobile and professional liability, worker's compensation, and temporary disability as required by applicable State and Federal laws. Certificates for all such policies of insurance shall be provided to the **CLIENT** upon written request. **GEL** shall not be responsible for any loss, damage or liability beyond the amounts, limits and conditions of such insurance.
- 19. **FORCE MAJEURE:** Should completion of any portion of the services be delayed beyond the estimated date of its completion for any reason outside the control of or without fault or negligence of **GEL**, the parties shall mutually agree on the terms and conditions upon which the services may be continued. Force majeure includes unforeseeable causes beyond the control and/or without the fault or negligence of **GEL** including, but not restricted to, acts of God, or the public enemy, acts of the government of the United States or of the several states, or any foreign country, or any of them acting in their sovereign capacity, acts of **CLIENT'S** contractors, fires, floods, epidemics, riots, quarantine restrictions, strikes, civil insurrections, freight embargoes, and unusually severe weather.
- 20. **LIMITATIONS OF COST ESTIMATES:** Any estimate of the probable construction cost of the project or any part thereof is not to be construed, nor is it intended, as a guarantee of the total cost.
- 21. REPLACEMENT OF SURVEY STAKES: If specifically included in Paragraph A of the Agreement, GEL will provide necessary construction stakes. In instances where it is determined that negligence on the part of the CLIENT or others results in the need for re-staking, the cost of such re-staking will be billed as an extra to the CLIENT on a time and material basis. It will be the CLIENT's responsibility to provide adequate protection of the stakes against his/her/its own negligence or the negligence of those working for or with the CLIENT and against vandalism by others. If staking is ordered by the CLIENT or others prematurely and construction does not take place, it will also be the CLIENT's responsibility to protect said stakes until such time as construction takes place.
- 22. **DISPOSAL OF HAZARDOUS OR POTENTIALLY HAZARDOUS SAMPLES:** Unless the **CLIENT** requests, samples for analysis will be disposed of upon completion of analysis. In the event that samples contain or may contain hazardous materials, **GEL** shall, after completion of testing and at **CLIENT'S** expense, (a) return such sample to client, or (b) arrange for disposal in a manner which complies with applicable regulations. **CLIENT** recognizes and agrees that **GEL** is acting as a bailee and at no time assumes title to said samples.
- 23. **DISPUTE RESOLUTION/MEDIATION/ARBITRATION: CLIENT** and **GEL** agree to make every effort to resolve all claims, disputes or controversies arising out of, or in relation to the interpretation, application or enforcement of this Agreement through mediation. The parties further agree that the **CLIENT** will require, as a condition for participation on the project and their Agreement to perform labor or services, that all contractors, subcontractors, sub subcontractors and material-persons, whose portion of the work

PROJECT CODE: [project code]

amounts to five thousand dollars (\$5,000.00) or more, and their insurers and sureties, agree to this procedure. All disputes not resolved through mediation shall be decided by arbitration in Charleston County, S.C. in accordance with the Commercial Arbitration Rules of the American Arbitration Association in effect at the time the dispute arises. Any award rendered by the arbitrator or arbitrators shall be final and judgment may be entered upon it in accordance with North Carolina law.

- 24. **LITIGATION:** Should litigation or arbitration be necessary to collect any portion of the amounts payable to **GEL** hereunder, then all of **GEL'S** costs and expenses of litigation and collection, including without limitation, fees, court costs, and reasonable attorney's fees (including such costs and fees on appeal), shall be paid by the **CLIENT** should **GEL** be granted a judgment or award in any amount in any such litigation or arbitration. The amount of **GEL'S** costs and expenses of litigation and collection shall be added to and become part of any judgment or award granted to **GEL** and shall be recoverable by GEL as such.
- 25. **SUCCESSORS AND ASSIGNS:** Neither **CLIENT** nor **GEL** shall assign, sublet, or transfer any rights under or interest in (including, but without limitation, monies that may become due or monies that are due) this Agreement without the written consent of the other, except to the extent that any assignment, subletting or transfer is mandated by law or the effect of this limitation may be restricted by law.
- 26. **AUTHORIZED REPRESENTATIVES:** Promptly following the execution of this Agreement, each party shall designate an authorized representative to represent and act for it with respect to matters relating to this Agreement. Each party may, from time to time, designate a new authorized representative by providing the other party by written notice of such change.
- 27. **ENTIRE AGREEMENT:** This Agreement constitutes the entire Agreement between the **CLIENT** and **GEL** and supersedes all prior agreements. Any term, condition, prior course of dealing, course of performance, understanding, purchase order conditions, or other agreement purporting to modify, vary, supplement, or explain any provision of this Agreement is of no effect unless placed in writing and signed by both parties subsequent to the date of this Agreement.
- 28. **NOTICES:** All notices called for by this contract shall be in writing and shall be deemed to have been sufficiently given or served when presented personally or when deposited in the mail, postage prepaid, certified and return receipt requested, addressed as follows:

[Client Contact] [Manager]

29. CONTROLLING LAWS: This Agreement is to be governed by laws of the State of South Carolina.

PROJECT CODE: [project code]

30. **AUTHORIZED SIGNATURES:** The person signing this Agreement warrants that he/she has the authority to sign as, or on behalf of, the **CLIENT**. If such person does not have such authority, it is agreed that he/she will be personally liable for all breaches of this Agreement, and that in any action against the signer for breach of this Agreement, a reasonable attorney's fee shall be included in any judgment rendered.

APPENDIX 19.2

USER PROVIDED INFORMATION

ASTM E 1527-13 USER QUESTIONNAIRE

INTRODUCTION: In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

INSTRUCTIONS: Indicate your response by initialing the appropriate box. For each questions answered "Yes," please include an explanation in the space provided.

Site Name: Beaufort Commerce Park – Lot 13	Client Name: Beaufort Co. Econom Development, Corp.	nic	
Address/Location: Schein Loop, Beaufort, SC			
GEL Project Name: Beaufort Commerce - 13	GEL Project No.: bced00220		
GEL Project Manager: Robert MacPhee	Environmental Professional: Robert	MacPh	iee
Item		Yes	No
1. Environmental cleanup liens that are filed or 312.25). Are you aware of any environmental cleanup liens recorded under federal, tribal, state or local law?			No
2. Activity and land use limitations that are in filed or recorded in a registry (40 CFR 312.26). Are you aware of any AULs, such as engineering institutional controls that are in place at the site and registry under federal, tribal, state or local law?	ag controls, land use restrictions or		No
3. Specialized knowledge or experience of the per (40 CFR 312.28). As the <i>user</i> of this <i>ESA</i> do you have any specialized the <i>property</i> or nearby properties? For example, a business as the current or former <i>occupants</i> of the that you would have specialized knowledge of the otype of business?	d knowledge or experience related to are you involved in the same line of property or an adjoining property so		No
4. Relationship of the purchase price to the fair were not contaminated (40 CFR 312.29).			
a.) If applicable, does the purchase p reasonably reflect the fair market value		Yes	
b.) If you conclude that there is a different lower purchase price is because conta present at the <i>property?</i>			

¹ ASTM E 1527-13 defines *user* as "the party seeking to use Practice E 1527 to complete an *environmental site* assessment of the *property*. A user may include, without limitation, a potential purchaser of *property*, a potential tenant of *property*, an *owner* of *property*, a lender, or a *property* manager."

ASTM E 1527-13 USER QUESTIONNAIRE (cont.)

Item	Yes	No
5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,		No
a.) Do you know the past uses of the <i>property</i> ? If so, please list known past uses.		No past uses
b.) Do you know of specific chemicals that are present or once were present at the property?		No
c.) Do you know of spills or other chemical releases that have taken place at the property?		No
d.) Do you know of any environmental cleanups that have taken place at the property?		No
6. The degree of obviousness of the presence or likely presence of contamination at the <i>property</i> , and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). As the <i>user</i> of this <i>ESA</i> , based on your knowledge and experience related to the <i>property</i> , are there any obvious indicators that point to the presence or likely presence of contamination at the <i>property</i> ?		No
7. This ESA is being performed: (check all that apply)		g done

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2020 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc., or its affiliates, is prohibited without prior written permission.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, Inc. or its affiliates. All other trademarks used herein are the property of their respective owners.

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Health & Environmental Control's Permitted Landfills List/Inactive MSWLF List.

A review of the SWF/LF list, as provided by EDR, and dated 12/10/2019 has revealed that there are 2 SWF/LF sites within approximately 0.5 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/16/2019 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

BEAUFORT ENGINE LEAS	8 SCHEIN LOOP	SE 1/8 - 1/4 (0.227 mi.)	3	10
EPA ID:: SCR000763250				

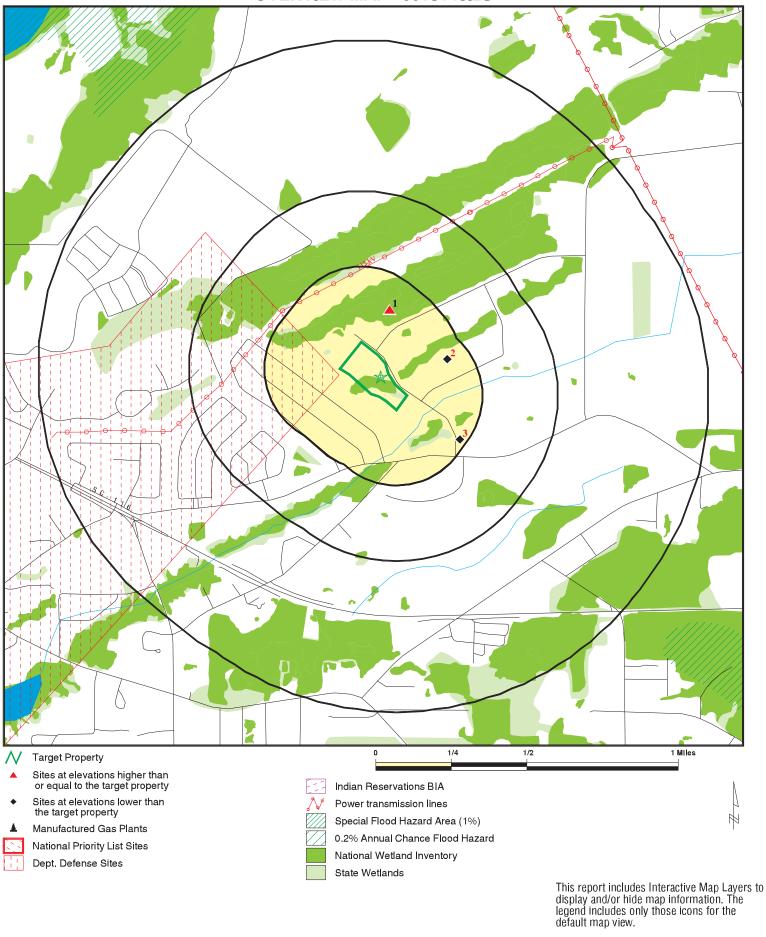

DOD: Consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

A review of the DOD list, as provided by EDR, and dated 12/31/2005 has revealed that there is 1 DOD site within approximately 1 mile of the target property.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System)

integrates information on environmental facilities, permits,

violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport,

and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA

program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

AUL: Land Use Controls

The term Land Use Controls or "LUCs" encompass institutional controls, such as those involved in real estate interests, governmental permitting, zoning, public advisories, deed notices, and other legal restrictions. The term also includes restrictions on access, whether achieved by means of engineered barriers (e.g., fence or concrete pad) or by human means (e.g., the presence of security guards). Additionally, the term includes both affirmative measures to achieve the desired restrictions (e.g., night lighting of an area) and prohibitive directives (e.g., restrictions on certain types of wells for the duration of the corrective action). Considered altogether, the LUCs for a facility will provide a tool for how the property should be used in order to maintain the level of protectiveness that one or more corrective actions were designed to achieve.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

ALLSITES: Site Assessment & Remediation Public Record Database

The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by GEL Engineering, LLC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.
